### **Orientation Talk: Python for Data Analytics & Business Intelligence Under RUSA Scheme 2.0**

For the students of R.A. Podar College of Commerce and Economics (Autonomous), Devellearn brings a foundational course in Python Programming which is designed to serve as a base for a career in Data Analytics or Business Intelligence.

In 2018, Python rose to take the #1 spot for the most popular programming language in the world. Today all small and large employers are looking for engineers who can code in Python as most systems are shifting to include this language in their systems.

#### **Course Objectives:**

1. Give a strong foundation in essential coding & scripting in Python
2. Introducing the students to the techniques of data extraction and analysis.
3. Teach them how to handle different formats of databases including xlsx, txt, XML, json, etc. This will prepare them for more advanced Data Management courses.
4. To demonstrate how to handle emails & other automation tasks using Python.

The orientation for this course shall be conducted on **Tuesday 22<sup>nd</sup> June 2021 at 10.30am via YouTube livestream** for the students. Students are required to register for the orientation talk.
